

OSTEOBIOLOGICS

AlloSource is a leading provider of osteobiologic and demineralized bone matrix (DBM) products. These products help stimulate natural bone formation by creating a framework into which host cells migrate. The results are improved outcomes for patients, which may reduce the need for additional treatment. Our comprehensive portfolio offers surgeons the right product for each surgical situation.

AlloFuse® DBM Gel and Putty.....7	CanPac (cancellous chips).....8
AlloFuse® Plus DBM Paste and Putty7	AlloFlex® Blocks8
AlloStem® Live Cellular Allograft7	AlloFlex® Filler.....8
AlloGro® Demineralized Bone Matrix7	AlloFlex® Strips.....8
AlloPac® (cortical-cancellous chips)8	

"Where my past ankle surgeries resulted in non-union, thanks to those little miracle strips full of cells and a terrific surgeon, the bone has been restored and I still have my foot. Soon I hope to go back to working my horse farm."

– SUSAN, ALLOSTEM STRIP RECIPIENT
