

SKIN ALLOGRAFTS

AlloSource is one of the nation's largest providers of skin allografts for the treatment of life-threatening burns and wounds resulting from severe burn injuries. We have saved hundreds of lives and have brought comfort to thousands more.

Skin – Split-Thickness Burn Care 27

In 2008, an explosion started a massive fire at a southeastern sugar refinery.

When the urgent call for help came from a regional burn center, AlloSource responded without delay—providing more than 1 million cm² of skin allografts to save the lives of 19 critically burned workers, while continuing to meet the needs of patients nationwide.

Skin Allografts
